New Driveway/Access	
Improve Existing Driveway/Access	
Move Existing Driveway/Access	

USE

Agricultural	
Residential	
Other	

Does the property have existing access (Y / N) _____

General Conditions & Specifications

1. The Municipality will inspect the proposed location and inform the applicant of the required culvert.
2. The applicant must notify the Municipality 24 hours prior to installation of the culvert.
3. The Municipality will inspect the final construction to ensure specifications are met.
4. All culverts shall have minimum cover of 8" of material.
5. All access driveways shall be installed with 3:1 grade slopes.
6. All access driveway road tops shall be a minimum of 20 feet wide.
7. Grade slopes of access driveways must be constructed so as not to impede water flow through culverts.
8. The Public Works Supervisor shall be responsible for determining the culvert requirements of an access.
